

Peak Palm Oil PLC has built a strong foundation in Guinea and has formed many solid relationships with some of the highest levels of Government. We are perfectly positioned in Guinea thanks largely to our parent companies and the experience we have gained through our diversified ventures.

Peak Palm Oil PLC has four concessions under agreement in the coastal region, just south of Conakry and has a fifty year land lease agreement which is ratified with the Government of Guinea.

Peak Palm Oil PLC sees the immense agricultural potential of West Africa, and the opportunity to return the “*Elaeis Guineensis*” back on the map to its native Guinea.

Our key objective is to create a sustainable and profitable venture that improves the quality of life in the communities that it operates.
